# FRIENDSHIP TOWN

## Session Objective:

\*Students will identify common friendship problems and skills.

## Materials:

- \*Game Board
- \*Game Pieces
- \*Game Cards

## Guiding Questions:

- \*Why are friendship skills important?
- \*How can friendships help improve our lives?

## Session Details (about 30 minutes)

Friendship Town Game: Place the Friendship Town Board Game on the table, I recommend using your own dice and player pieces from a board game you already own but you can also use the ones provided by printing and cutting them out. Use cardstock paper so the pieces and dice have more weight to them, if you can. Roll the dice to see who goes first, highest number goes first and the game proceeds clockwise from the dice roll winner. Students will move pieces along the board by rolling the dice. Wherever they land, they pick up a card from that location (they are also color coded) and read the card out loud. If they provide a reasonable response, they get a point. There is no official "end" to the game but once your designated time to play is up, I usually give them one candy for each point so the more they answer, the more candy they get. You can also use pencils, erasers, or other goodies as incentives or even not have one and just see who can get the most points. I prefer to not put the kids against each other to allow for a more positive environment for them to want to share their thoughts and opinions. The goal of the game is to have a discussion about friendship skills, friendship problems, and to enable self-reflection. Use the guiding questions on this page to help guide your discussion.

- Social Skills: Leaderships and teamwork skills to work effectively in diverse groups. (B-SS 7)
