How to Use the Activity:

Please make sure students are using the presentation in "edit" mode (NOT in full-screen "presentation" mode) or the interactive slides will not work!

- This presentation teaches students the difference between "Sunny Friends" and "Stormy Friends." The presentation reviews 6 qualities of Sunny Friends and 6 qualities of Stormy Friends.
- After the instructional material, the presentation offers 36 scenarios for students to practice deciding if they show a Sunny Friend choice or a Stormy Friend choice. Directions are included. Students read the scenario, then move the yellow X to the circle on the Sunny Friend side if the scenario shows a positive friendship choice, or to the circle on the Stormy Friend side if the scenario shows a negative friendship choice.
- The presentation closes with a discussion question that asks students how they can be a Sunny Friend. They can type directly in the text box that says, "type here."
- Printable activities are also included in the zip folder that you can use to supplement or close the lesson if you'd like!
