# ASCA MINDSETS & BEHAVIORS:

## Category 1: Mindset Standards

- M1. Belief in development of whole self, including a healthy balance of mental, social-emotional, and physical well-being.

## Category 2: Behavior Standards

- B-SS 2: Positive, respectful, and supportive relationships with students who are similar to and different from them.
- B-SS 4: Demonstrate empathy.
- B-SS 5: Demonstrate ethical decision-making and social responsibility.
- B-SS 10: Cultural awareness, sensitivity, and responsiveness.

# DIRECTIONS PAGE 1:

This lesson will take approximately 45 minutes to teach.

## Recommended Sequence:

1. Review the PowerPoint or digital for Google Slides presentation.
2. Divide students into small groups of 3-4. Give them a **diverse kid page** and the **6 coordinating discussion cards**. Ask them to read about their kid and answer the questions together.
3. Give each group a few **"Diversity Chat" discussion cards**. Give them time to talk as a group, then ask each group to read their cards aloud and share their responses with the class.
4. Complete any of the included **worksheets or coloring pages**.

## PRESENTATION:

Both a PowerPoint and digital for Google Slides version of the presentation are included. This presentation teaches students that **diversity is beautiful**. It starts by asking students to compare their thoughts and feelings about **2 different gardens**: one that has flowers that are all the same, and one that has flowers that are all different. **Discussion questions** are written on each slide. Ask students to "Turn and Talk" with a neighbor about the questions and then share their responses with the class. Then, the presentation relates people to the garden metaphor and the concept of **diversity**. Next, the presentation teaches students **5 reasons why diversity is beautiful**. Then, it tells students that we are going to **"meet" kids from diverse backgrounds**. It offers several questions that students can ponder as they learn about each diverse kid. A total of **25 diverse kids** are included. Printable descriptions of each kid are also included if you prefer to present them that way. You may choose to explore with students as many diverse kids as you'd like! You may also consider presenting these over multiple lessons/sessions/days. I recommend asking a volunteer to come to the front of the room to read each slide to the class, introducing that kid to their classmates. Then, they can choose any of the discussion questions to answer and spark a conversation with their peers. Continue sharing diverse kids as time allows.

# DIRECTIONS PAGE 2:

## DIVERSE KIDS PAGES & DISCUSSION CARDS:

25 printable diverse kids pages and 6 coordinating discussion cards for each kid are included in full color and black/white. A PowerPoint slide describing each diverse kid is also included if you prefer to present them that way. I recommend dividing students into groups of 3-4 and giving them a diverse kids page and the 6 coordinating discussion cards. Ask students to read about their diverse kid together and answer the questions on the coordinating discussion cards. After they're done with their first diverse kid, if you have time, give them another diverse kid page and set of coordinating discussion cards to talk about. Then, consider asking each group to present their diverse kid to the class and share their responses to the discussion cards.

18 general discussion cards about diversity as well as a single page of questions are also included. Feel free to use these in whole group or give each small group a few cards to talk about, then share out with the class.

## WORKSHEETS & COLORING PAGES:

Assorted worksheets and coloring pages are included. The first worksheet asks students to fill out a diverse kids page about themselves. These are a fun way for students to explore their own identities and learn how they're special and unique. They also are a great tool for helping students see and celebrate the diversity among their peers.

## ALL ABOUT JONAH

Jonah is a cheerful, confident boy with a big heart and an even bigger imagination. He's plus-size, which means his body is larger, and that's perfectly okay! Jonah knows that bodies come in all shapes and sizes, and his size doesn't stop him from doing the things he loves.

Jonah is an amazing friend. He notices when someone needs help carrying something, needs a partner for a project, or needs someone to sit with at lunch. He loves sports, especially swimming and kickball, because they make him feel strong.
