PowerPoint Presentation:

This presentation teaches students about 3 different sizes of problems and the role of the school social worker. It has a surfing theme and the main idea is: "school social workers help students surf the waves of life." First, it teaches students that "life comes with waves" and provides 10 examples such as friendship problems, big feelings, bullying, losing a pet, feeling left out, etc. Then, it teaches that school social workers are there to support and help students through the "waves of life." Next, students learn about the 3 types of "waves:" "ripples," "waves," and "tidal waves." The presentation walks students through each type and provides examples of each one. It explains that "ripples" students can handle on their own, "waves" sometimes need support from an adult, and "tidal waves" *always* need support from an adult. The presentation also teaches students times when they may need to ask for support with waves.

Then, **slide 13 is editable** for you to add in your photo, name, and a brief description of yourself. You can type directly in the text boxes.

TO ADD IN YOUR PHOTO:

Delete the existing photo. Click on the "Insert" tab → "Pictures" → "Picture from file" → Choose your picture → Insert. Then, you can resize the photo and drag it into the frame.

DIRECTIONS PAGE 2:

Finally, the presentation teaches students about the 6 "surfboards" that school social workers use to help students "surf the waves of life." They are: listener, helper, solver, secret-keeper, safe person, and kindness. The presentation describes each surfboard as well as confidentiality and its limits. The last slide assures students that "no one surfs alone" and that their school social worker is there to help. Then, it asks students to share how their school social worker can help them. Feel free to generate a discussion around this.

Referral Form:

A half-page referral form is provided in full color and black/white. Students can use these to refer themselves for social work services.

Posters:

5 posters are provided that summarize the content from the presentation. These are beautiful to display in your space and for review!

Crafts

2 different crafts are provided in full color and black/white. Please choose the one that best fits the needs and abilities of your students. For each craft, 10 different options for the school social worker clipart are included. Please choose the clipart that looks the most like you. Samples of both crafts are provided on the next pages.

Craft #1: The first craft asks students to draw or write one way their school social worker helps them in each section of the surfboard. Then, they can color the surfboard and school social worker, cut them out, and glue them onto a piece of construction paper.

Craft #2: The second craft includes 3 surf boards, a palm tree, and sand. First, students can draw or write one way their school social worker helps them on each surfboard. Then, they can color and cut out all 5 pieces. Next, they can glue the palm tree and the 3 surf boards onto the sand as shown in the sample. Finally, they can glue it onto a piece of construction paper.

Worksheets:

2 worksheets and 1 coloring page are included. For each page, multiple different options for the school social worker clipart are provided. Please choose the one that looks the most like you. Directions are provided at the top of the page.
