# ASCA MINDSETS & BEHAVIORS:

## Category 1: Mindset Standards

- M1. Belief in development of whole self, including a healthy balance of mental, social-emotional, and physical well-being.

## Category 2: Behavior Standards

- B-SS 2: Positive, respectful, and supportive relationships with students who are similar to and different from them.
- B-SS 4: Demonstrate empathy.
- B-SS 5: Demonstrate ethical decision-making and social responsibility.
- B-SS 10: Cultural awareness, sensitivity, and responsiveness.

# DIRECTIONS PAGE 1:

This lesson will take approximately 45 minutes to teach.

## RECOMMENDED SEQUENCE:

1. Review the PowerPoint or digital for Google Slides presentation.
2. Divide students into small groups of 3-4. Give them a **diverse character page** and the **coordinating doodle worksheet**. Ask them to read about their character and fill out the doodle worksheet describing their character.
3. Give each group a few **"Diversity Chat" discussion cards**. Give them time to talk as a group, then ask each group to read their cards aloud and share their responses with the class.
4. Ask each student to complete an **"all about me" doodle worksheet** that lets them explore and share their own identities.

## PRESENTATION:

Both a PowerPoint and digital for Google Slides version of the presentation are included. This presentation teaches students that **diversity is beautiful**. It starts by asking students to compare their thoughts and feelings about **2 different gardens**: one that has flowers that are all the same, and one that has flowers that are all different. **Discussion questions** are written on each slide. Ask students to "Turn and Talk" with a neighbor about the questions and then share their responses with the class. Then, the presentation relates people to the garden metaphor and the concept of **diversity**. Next, the presentation explains why our differences complete the "garden" and make it stronger. Then, the presentation teaches students **5 reasons why diversity is beautiful**. Next, it tells students that we are going to **"meet" characters from diverse backgrounds**. It offers **10 questions** that students can ponder and discuss as they learn about each diverse character. A total of **24 diverse characters** are included. Printable descriptions of each character are also provided if you prefer to present them that way. You may choose to explore with students as many diverse characters as you'd like! You may also consider presenting these over multiple lessons/sessions/days. I recommend asking a volunteer to come to the front of the room to read each slide to the class and introduce the character to their classmates. Then, they can choose any of the discussion questions to answer and spark a conversation with their peers. Continue sharing diverse characters as time allows.

# DIRECTIONS PAGE 2:

## DIVERSE CHARACTERS PAGES & DOODLE WORKSHEETS:

24 printable diverse characters pages and a coordinating doodle worksheet for each character are included in full color and black/white. A PowerPoint slide describing each diverse character is also included if you prefer to present them that way. I recommend dividing students into groups of 3-4 and giving them a diverse character page and the coordinating doodle worksheet. Ask students to read about their diverse character together as a group and fill out the doodle worksheet that describes their identity/differences/culture/personality, etc. Students can also color the portrait of the character in the frame. After they're done with their first diverse character, if you have time, give them another diverse character page and doodle worksheet to complete. Then, ask each group to present their diverse character(s) to the class and share their responses on their doodle worksheet(s).

24 "Diversity Chat" discussion cards about diversity are also included. Feel free to use these in whole group or give each small group a few cards to talk about, then share out with the class.

## DOODLE WORKSHEET:

An "all about me" doodle worksheet is provided that lets students explore their own identities and learn how they're special and unique. Students can write their name on the line and draw a picture of themselves in the frame. Then, they can write and draw about their personality, culture, hobbies, style, and fun facts in the boxes. In the heart, they can write or draw about something they love most about themselves. When they're done, students can share their doodle worksheet with the class to help their classmates get to know them and celebrate their differences. These are also a great piece of student work to display in the hallway!

# let's meet LUCA

## PERSONALITY >>>

Luca is bold in the best way. He doesn't just follow trends, he starts them! If everyone else is wearing the same hoodie, Luca shows up in something completely different that he designed himself, and he wears it with total confidence. He believes that fashion is a way to express who you are, and he refuses to hide his creativity just to fit in.

Luca is full of big ideas. His brain is always buzzing with wild color combinations, patterns, and new designs. Sometimes he'll stop in the middle of a conversation because he suddenly thought of a cool jacket he wants to sketch later. His friends know that's just part of who he is.

Even though fashion isn't a common passion for boys his age, Luca doesn't let that stop him. He's proud of what he loves, and he's not afraid to stand out. He supports other people being themselves, too, whether they're into sports, art, robotics, dance, or anything else!

## STYLE >>>

Luca's style is bold, creative, and one-of-a-kind. He likes mixing textures and layers. Accessories are a big part of his look. He likes jewelry and patterned scarves that pull his outfits together.

## HOBBIES >>>

Luca's biggest hobby is fashion design, and he treats it like both an art and a science. He spends hours sketching outfits in his notebook experimenting with shapes, colors, and details. He loves imagining how fabrics will move, how patterns will fit together, and how an outfit can change someone's confidence. Luca loves designing clothes for his friends and family and adding unique touches that show off their personalities.

Luca also enjoys sewing. He has a small sewing kit at home filled with needles, threads, buttons, and scraps of fabric from old shirts. He also has a sewing machine passed down from his nonna. Luca likes practicing stitches, customizing jackets, and turning plain clothes into standout pieces. Sometimes he even adds patches and embroidery to his own outfits!

## CULTURE >>>

Luca comes from a big, lively Italian family. He lives with his parents, siblings, and grandparents. Their house is always full of movement, voices, and delicious smells coming from the kitchen. To Luca, this noise doesn't feel chaotic, it feels like home. Luca's grandparents speak Italian and English. He understands the Italian language well, but feels most comfortable speaking English.

Family is everything in Italian culture. Big family dinners are a tradition, especially on Sundays. Their table is full of pasta, fresh bread, roasted vegetables, and dishes that have been passed down for years. Luca loves that every family recipe has a story. His nonna always says, "This is how *my* mother made it," as she pours her heart into cooking their meals.

# let's meet Keisha

## PERSONALITY >>>

Keisha has a unique personality. She is Autistic, which is a neurological difference. Being Autistic does not make Keisha "less than" or "broken." She simply thinks, learns, communicates, and experiences the world differently than her peers. These differences come with both strengths and challenges.

Keisha loves patterns, structure, and anything that allows her mind to organize ideas in a clear way. She prefers routines because they help her feel safe and focused. She likes knowing what to expect and does best when transitions are clear and smooth.

Keisha has sensory differences that make her sensitive to loud noises, bright lights, and certain fabrics. Sometimes when she feels overwhelmed, she needs to take a break, "stim" (rock, flap her hands, hum), or fidget with her stress ball. This helps her body recenter and regulate itself.

## STYLE >>>

Keisha's style is simple, comfortable, and calm. She likes clothes that feel soft and gentle on her senses. Sometimes she wears headphones to protect her sensitive ears from sound.

## HOBBIES >>>

Keisha has a couple of special interests she loves learning about: dinosaurs and ocean animals. When she talks about her favorite topics, her eyes light up! She loves teaching others cool facts they never knew. She spends hours organizing her dinosaur figurines, reading books about dinosaurs, and watching documentaries about ocean animals. Keisha gets easily lost in these topics and loses track of time!

Keisha also loves drawing her special interests. She has notebooks filled with her detailed drawings of velociraptors, stegosauruses, manatees, whales, and dolphins. Drawing helps her relax and focus, and it gives her a calm way to express herself. She loves using the set of colored pencils her grandma gave her for her birthday. Keisha loves sharing her drawings with others. If you'd like to see them, just ask!

## CULTURE >>>

Keisha's culture is centered around understanding, patience, and celebrating each person's unique way of moving through the world. Her family values clear communication, gentle routines, and spaces where everyone feels safe and heard. They believe in giving people time to think, time to process, and time to express themselves in the way that feels comfortable.

Keisha's family teaches her that there is no one right way to learn, play, or communicate. They celebrate Keisha's intense interests and help her explore them without rushing. When she talks about something she loves, her family listens with excitement and encourages her to keep learning. Keisha grew up feeling proud of who she is.

# let's meet TESSA

## PERSONALITY >>>

Tessa is thoughtful, perceptive, and incredibly aware of the world around her. Tessa is deaf and uses cochlear implants: small devices that help her brain receive sound. She often notices when someone is left out, worried, or uncomfortable long before anyone else does.

Tessa is super patient and appreciates when others are patient with her in return. She takes her time to process what someone is saying. Whether she is speaking or signing, her words are meaningful and intentional. She chooses honesty, kindness, and clarity over anything flashy or loud. Tessa also has a bright sense of humor, a creative imagination, and a playful spirit. She loves laughing with friends, sharing stories, and expressing her emotions through art and movement.

## STYLE >>>

Tessa's style is soft, expressive, and comfortable. When she's not wearing her dance leotards and pointe shoes, you'll see her in cozy sweaters, soft cotton tops, and leggings.

Tessa also loves crafting and hands-on projects. She likes making bracelets, sculpting with clay, creating small decorations for her room, and building things from kits. These activities let her use her hands and imagination at the same time.

She also enjoys learning sign language, practicing new signs, and teaching them to friends who want to communicate with her more easily. For Tessa, signing feels expressive and freeing, like a dance for her hands.

## CULTURE >>>

Tessa is part of the deaf community. In her world, hands, faces, and body language carry meaning just as strongly as spoken words. This makes her culture rich, creative, and full of connection.

Tessa's family and community teach her that deafness is not a limitation. It is a different way of experiencing the world, one filled with its own history, language, and pride. Tessa has many deaf role models who are artists, actors, dancers, musicians, and more.

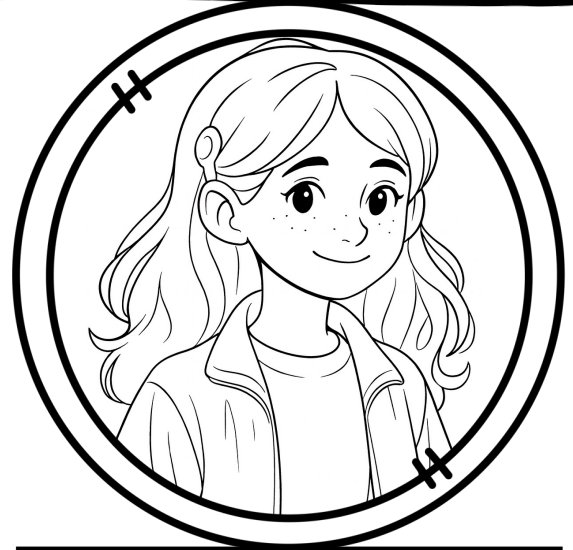

Tessa's culture embraces flexibility. Some days she communicates mainly through spoken language. Other days she uses sign language or a mixture of both. What matters most is that she and her loved ones feel understood and respected.
