PROBLEM-SOLVING

PARENT LETTER

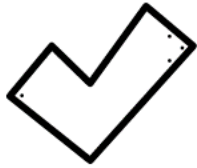

Hello Parents,

We are learning all about Problem-solving. We defined problem-solving as: the process of identifying an issue and finding solutions to overcome it.

Here are some ways you can teach Problem-solving to your child at home:

Ask Open-Ended Questions: Encourage children to think about solutions by asking questions like, "What do you think we should do?" or "How can we solve this problem?"

Break Down Problems: Help them break down larger problems into smaller, manageable parts.

Encourage Persistence: Teach them not to give up when a solution doesn't work the first time. Encourage them to try different approaches.

Praise Efforts: Acknowledge their efforts and creativity in solving problems, not just the successful outcome.

By developing strong problem-solving skills, students can handle challenges more effectively, make better decisions, and navigate life's difficulties with confidence and resilience.

PROBLEM-SOLVING

WRITING PROMPTS

1. Think of a time where you compromised to resolve a conflict. Explain the situation and how the compromise helped.
2. Identify a problem in your community (e.g., littering, lack of public spaces, etc.). Propose a detailed plan to address this issue, including resources needed, potential obstacles, and expected outcomes.
3. Think about a major goal you want to achieve. Outline the steps you need to take to accomplish this goal and potential challenges you might face. How will you overcome these challenges?
4. Write about a time you faced a significant obstacle in your life. How did you approach solving this problem? What strategies did you use, and what was the outcome?

PROBLEM-SOLVING

MORNING ANNOUNCEMENTS

Name: _____

Date: _____

***Week 1:** We are learning all about Problem-solving. We defined problem-solving as the process of identifying an issue and finding solutions to overcome it. Some ways you can problem-solve at school are using critical thinking to analyze problems and develop solutions, listen to others ideas, and find peaceful solutions through compromise.

***Week 2:** We are continuing to learn all about Problem-solving. Remember problem-solving means identifying an issue and finding solutions to overcome it. Some ways that you can problem-solve at home are sharing with a sibling, participating in family discussions, modeling problem-solving for siblings, and resolving conflicts peacefully.

***Week 3:** We are continuing to learn all about Problem-solving. Remember problem-solving means identifying an issue and finding solutions to overcome it. Some ways that you can problem-solve in your community is by taking on a leadership role in a club or sport, starting a neighborhood recycling program to reduce waste, organize a neighborhood clean-up, and helping to search for a lost pet.

***Week 4:** As we continue to learn about Problem-solving, let's reflect on this quote by Rick Warren, "Life is a series of problem-solving opportunities. the problems you face will either defeat you or develop you depending on how you respond to them." This means throughout our whole life we will be problem-solving, so it is an important characteristic to develop and improve. What is one way you will problem-solve today?

***Week 5:** Problem-solving is an essential trait to have for many careers. Human Resource Managers for example show a lot of problem-solving. An HR career is all about helping people at work. They recruit, hire, and onboard new talent, administer benefits such as health insurance, and approve time off and leave requests. Other human resources responsibilities include training new workers and ensuring they understand company policies. In a company, HR helps solve problems between employees, making sure everyone gets along and follows the rules. Think of a career you might be interested in, and how you can problem-solve in it.

***Week 6:** Problem-solving is also shown by many leaders throughout history and is an important feature of being a leader. One such leader was Marie Curie who was a physicist and chemist that conducted pioneering research on radioactivity. Marie Curie is remembered for her discovery of radium and polonium and her contribution to finding treatments for cancer. It took Marie Curie over three years to isolate one-tenth of a gram of pure radium chloride, a speck almost too tiny to see. Only then could she find the new element's atomic weight. It took her another eight years to isolate pure radium. Marie Curie once said, "I was taught the way of progress is neither swift nor easy." Think about how you can be a leader in your classroom by using problem-solving skills.

COMPROMISE

Mia and Alex both want to play on the only available swing, but there's only one swing and recess is almost over. There is only ten minutes left of recess. Alex suggests he be the one to use it because Mia used it yesterday. Mia suggests none of them use it to be fair. Alex offers a compromise suggesting they both use the swing for five minutes to make it fair. Mia agrees and uses her watch to time their turns.

How did these students Problem-solve?

SEARCH ENGINES

Alex is working on a science project about the solar system. He needs to create a presentation that includes facts about each planet. He starts by using a search engine to look up information about the solar system. Alex types in "facts about the planets" and reviews several websites, noting interesting and relevant information about each planet. He doesn't find enough detailed information on each planet, so he changes his search to "facts about Jupiter" and does this for each planet. He compiles and organizes the information into an online presentation.

How did he show digital problem-solving?

ROAD TO PROBLEM-SOLVING: COLOR THE CAR OF YOUR ANSWER.

You and your friend are building a tall tower of blocks. Suddenly, the tower starts to wobble and is about to fall.

Scream and run away from the tower.

Quickly put your hand under the wobbly part to support it and ask your friend to help fix it.

Laugh and knock the tower over on purpose because it's fun.

You're doing a puzzle, and you can't find the piece that fits in the last spot.

Carefully search the area and look under the table to find the missing puzzle piece.

Decide the puzzle is too hard and put it away.

Use a piece from a different puzzle to fill the spot.

You want to play a game with your friends, but they are busy doing something else.

Insist that they stop what they are doing right away and play with you.

Walk away and find someone else to play with.

Ask your friends if they can play the game with you when they are finished.

PROBLEM-SOLVING

ROAD TO PROBLEM-SOLVING

Name: _____

ROAD TO PROBLEM-SOLVING: COLOR THE CAR OF YOUR ANSWER.

You're trying to ride your bike, but the chain keeps coming off.

Ask a grown-up for help or use the chain tool to fix it.

Kick your bike and hope the chain goes back on.

Leave your bike by the side of the road and walk home.

You can't find your favorite book in the library.

Start rearranging the books on the shelves in hopes of finding it.

Cry about it.

Ask the librarian for help in finding the book or suggest looking in a different section.

You're playing with your toys, and your little brother wants to join but you don't want him to.

Include your brother and show him how to play with the toys together.

Tell your brother to go away because you don't want him there.

Hide your toys from your brother.

PROBLEM-SOLVING

Name: _____

Date: _____

ROAD TO PROBLEM-SOLVING: COLOR THE CAR OF YOUR ANSWER.

Your classroom is a bit messy after an art project. .

Leave the mess as it is and hope the teacher won't notice..

Add more mess to make it look like a fun party.

Help clean up the mess with your classmates by putting everything back in its place.

Your friend is sad because they lost their favorite toy at the park.

Pretend you lost your toy too and start crying together.

Tell your friend that it's just a toy and they should get over it.

Offer to help your friend look for the toy or suggest telling an adult about it.

You have a math problem that you can't seem to solve.

Ask your teacher or a classmate for help and practice until you understand it.

Draw a picture instead of doing the math problem.

Tear up the paper and say math is too hard.

PROBLEM-SOLVING

ROAD TO PROBLEM-SOLVING

Name: _____

Date: _____

ROAD TO PROBLEM-SOLVING: COLOR THE CAR OF YOUR ANSWER.

You and your friend are building a sandcastle at the beach, but the waves are getting closer and might wash it away.

Let the waves destroy the sandcastle and start building a new one away from the water.

Quickly build a sand barrier in front of the castle to protect it from the waves.

Throw a tantrum when the waves ruin your sandcastle.

You're on a picnic and realize that you forgot to pack the drinks.

Decide to go home and cancel the picnic.

Tell everyone they can just drink water from the park's water fountain.

Ask if anyone else brought extra drinks to share or go to a nearby store to buy some.

Your favorite stuffed animal has a tear in its arm.

Throw your stuffed animal away because it's broken.

Ask a grown-up to help you sew the tear and make your stuffed animal feel better.

Pretend the stuffed animal is a superhero with a ripped costume.

PROBLEM-SOLVING

ROAD TO PROBLEM-SOLVING

Name: _____

Date: _____

ROAD TO PROBLEM-SOLVING: COLOR THE CAR OF YOUR ANSWER.

You're at the store with your parent, and you can't find your favorite cereal on the shelf.

Throw a tantrum in the store because you can't find it.

Ask a store employee if they have more of your cereal in the back or if they know where it is.

Decide to go hungry because your cereal isn't there.

You're painting a beautiful picture, but you accidentally spill paint on it.

Try to carefully clean up the spilled paint and continue painting your picture.

Give up on the painting and throw it away.

Dip your hands in the paint and make handprints all over the picture.

Your school project is due tomorrow, and you've run out of glue.

Try to use tape instead of glue, even though it might not work as well.

Decide not to do the project because you don't have glue.

Ask a classmate if they have extra glue or go to the store with a parent to buy more.

PROBLEM-SOLVING

ROAD TO PROBLEM-SOLVING

Name: _____

Date: _____

ROAD TO PROBLEM-SOLVING: COLOR THE CAR OF YOUR ANSWER.

Your little sister accidentally knocked over your Lego creation, scattering all the pieces that you just spent so much time building.

Ask her to help you pick up the pieces, so you can continue playing.

Get mad at your sister and refuse to let her play with you.

Decide to throw the board game away because it's ruined.

You're making a sandwich, and you drop a slice of bread on the floor.

Ask your mom to make the sandwich for you because you can't.

Throw the dirty bread away and get a clean slice to make your sandwich.

Pick the bread up from the floor and use it anyway.

You want to play outside, but it is storming.

Put on a raincoat and boots and play outside in the rain.

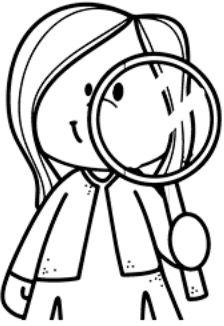

Try to stop the rain by yelling at the clouds.

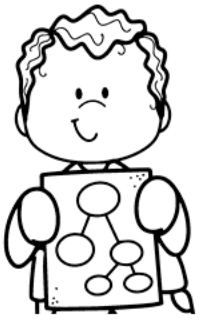

Stay inside and watch TV because you can't go outside.

PROBLEM-SOLVING STEPS

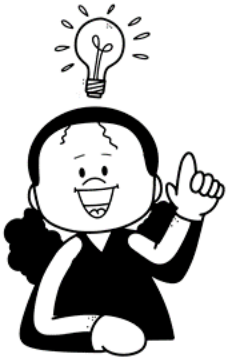

DEFINE THE PROBLEM

Recognizing and clearly defining the problem.

BRAINSTORM SOLUTIONS

Collecting relevant information to understand the problem better. Think about multiple potential solutions.

PICK A SOLUTION

Selecting the most effective and practical solution from the options.

TEST THE SOLUTION

Putting the chosen solution into action.

REVIEW THE RESULTS

Evaluating the results of the solution to make sure the problem is resolved and learning from the process.

TASK CARDS

TASK

THINK & DISCUSS

CARDS

TIPS FOR USING TASK CARDS

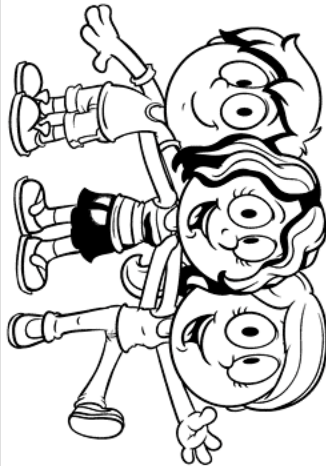

- Encourage students to think about each question and share their response.
- Pair students together to have them take turns answering the task cards.
- Use the task cards as a center activity.
- To make it a writing activity, have students write their responses on paper.
- To make it a class wide activity, read the card out loud and encourage student responses. (see included PowerPoint slides to display on board)

DIG DEEPER QUESTIONS

- Are there multiple answers that could be considered good problem-solving solutions?
- How are your responses different or similar to other students?
- Why are some of our responses similar or different?
- What impacts our decision to be problem-solve or put it off/not deal with it?
- Does one bad decision make you a bad person?
- What will happen if you repeatedly make bad decisions?

QUOTE ABOUT

PROBLEM-SOLVING

“LIFE IS A SERIES OF PROBLEM-SOLVING OPPORTUNITIES. THE PROBLEMS YOU FACE WILL EITHER DEFEAT YOU OR DEVELOP YOU DEPENDING ON HOW YOU RESPOND TO THEM.”

-RICK WARREN

STUDENTS THAT

PROBLEM-SOLVE

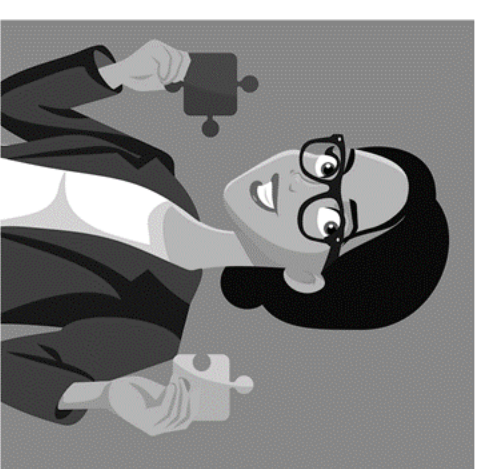

WORK TO SOLVE CLASSROOM PROBLEMS EFFECTIVELY AND PEACEFULLY.

- ✱ Share and take turns.
- ✱ Come up with creative solutions.
- ✱ Listen and be open to different ideas.
- ✱ Find a peaceful compromise to a conflict.

CAREERS THAT

PROBLEM-SOLVE

HR MANAGER

An HR (Human Resources) career is all about helping people at work. HR ensures a company's policies and systems function as intended. They recruit, hire, and onboard new talent, administer benefits such as health insurance, and approve time off and leave requests. Other human resources responsibilities include training new workers and ensuring they understand company policies. In a company, HR helps solve problems between employees, making sure everyone gets along and follows the rules.

LEADERS THAT

PROBLEM-SOLVE

MARIE CURIE

Marie Curie was a physicist and chemist who conducted pioneering research on radioactivity. She was the first woman to win a Nobel Prize. Marie Curie is remembered for her discovery of radium and polonium and her contribution to finding treatments for cancer. She used her groundbreaking understanding of radioactivity to help the X-ray take stronger and more accurate pictures of the human body. It took Marie Curie over three years to isolate one-tenth of a gram of pure radium chloride, a speck almost too tiny to see. Only then could she find the new element's atomic weight. It took her another eight years to isolate pure radium. Marie Curie once said, "I was taught the way of progress is neither swift nor easy."

DIGITAL

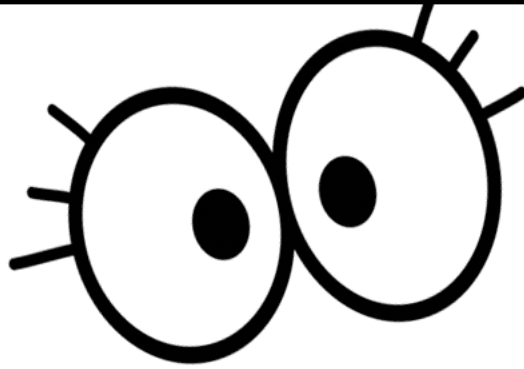

PROBLEM-SOLVING

THE ABILITY TO APPLY DIGITAL TOOLS AND TECHNOLOGIES TO SOLVE PROBLEMS.

- ✱ Use safe search engines to find the information you need.
- ✱ Using online tutorials, FAQs and advice forums to solve problems.
- ✱ Use critical thinking skills to evaluate accuracy of information found online.

PROBLEM-SOLVING LOOKS LIKE

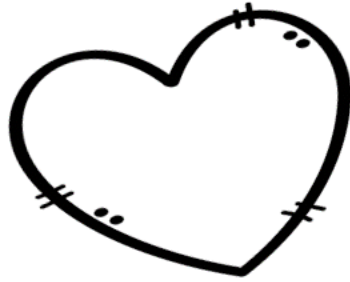

- * I brainstorm ideas.
- * I use visual aids like charts or lists to organize my thoughts.
- * I work well with others.
- * I share and take turns.
- * I am open to trying different ideas.
- * I don't give up.

PROBLEM-SOLVING SOUNDS LIKE

- * I offer up creative solutions.
- * I listen to others ideas.
- * I use kind and respectful words.
- * I talk through disagreements and compromise to find a solution.
- * I ask questions to clarify.
- * I offer supportive comments to motivate others.

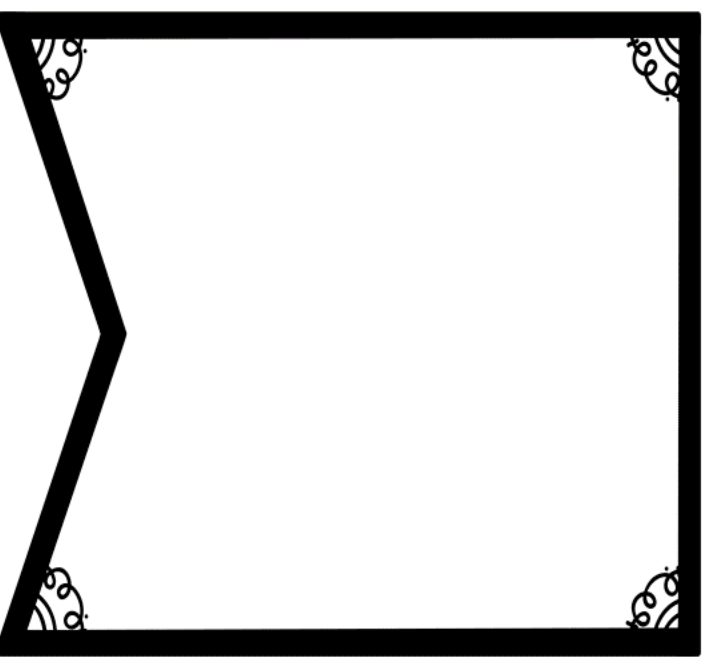

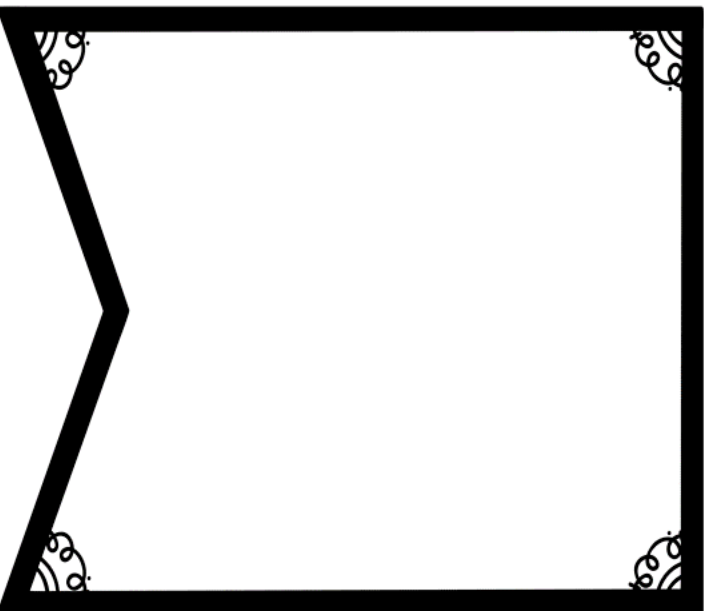

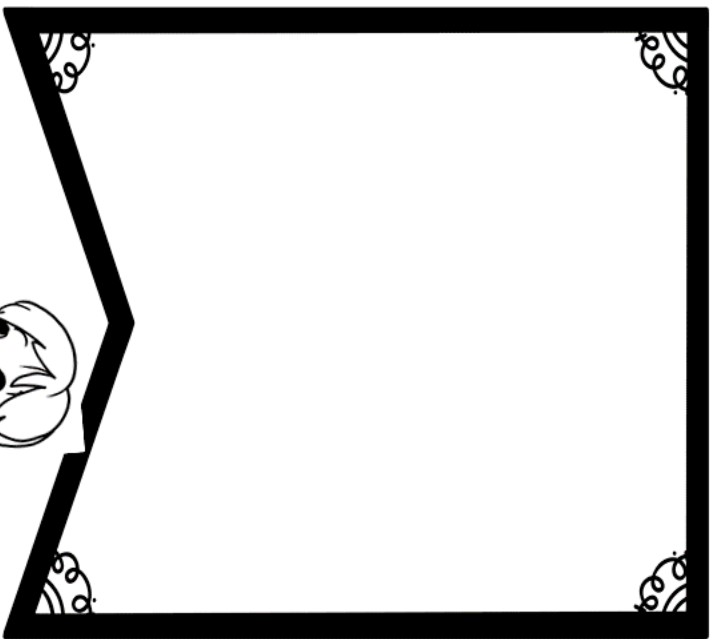

PROBLEM-SOLVING FEELS LIKE

- * I feel helpful.
- * I feel cooperative.
- * I feel productive.
- * I feel creative.
- * I make others feel heard.
- * I feel accomplished.
- * I feel empowered.
- * I feel capable and competent.

GOOGLE SLIDES

Your resource comes with a digital version for use in Google Slides via Google Classroom. Follow these steps to upload your resource.

1 Click here  [Character Ed: Problem-solving](#)

2 You will be prompted to make a copy of the resource. Click on the blue box that says "Make a copy" and the resource will go directly into your Google drive.

Google Drive

Copy document

Would you like to make a copy of Career Interest Inventory?

Make a copy

3 Go to your Google Drive and locate the copy of the file. You can rename the file at this point or add/delete slides.

4 Next, go to your Google Classroom and add an assignment. Select the Google Drive Symbol and select the resource you want to assign.

5 From here, you should see a grey box that says "Students can view file." Click the grey box. A dropdown menu should appear. Select, "Make a copy for each student."

YOU HAVE TO MAKE A COPY FOR EACH STUDENT!

Otherwise they will all be editing the same file.

Click "Assign" in the top right corner if you're ready to post!

This product is meant to be used in "edit" mode (not "presentation" mode). Edit mode is the only mode that allows drag & drop and writing in text boxes.
